best design tip:

1. assume nothing
2. double check everything
3. measure, measure, measure

favorite pattern:

anything that looks + feels authentic or one-of-a-kind; I'm really drawn to mud cloths because the patterns on these textiles have a story to tell. They've already lived a whole life before they find their home with you.

best advice:

"go out + kick ass." – Maya Angelou

hidden talent:

worst cook in the office; 2013 – present.

if it's the last thing i do...

i will own a huge dog!

trip of a lifetime:

backpacking through south america
