best design tip:

always focus on the details.

favorite pattern:

im a sucker for anything art deco + blue and white chinoiserie.

best advice:

fear and excitement release the same chemical reaction in your brain // it's simply your perspective on which one you choose.

hidden talent:

designing "fine leather goods" (parks and rec).

if it's the last thing i do...

i will dive with whale sharks.

trip of a lifetime:

helicopter ride over an active volcano.
