best design tip:

plants + baskets everywhere.

favorite pattern:

anything that's authentic or one-of-a-kind like mudcloth & shibori dyed items. the patterns have a story to tell; they've already lived a whole life before they find their home with you.

best advice:

trust the universe, it knows the way

hidden talent:

worst cook in the office; 2013 – present.

if it's the last thing i do...

i will own a huge dog (or two)!

trip of a lifetime:

explore national parks outside the us! what's out there?
