design development
architectural drafting
construction documents
finish selection
ffe
3d rendering
client presentations
value engineering
analyzing + documenting existing conditions
project management
coordinating between trades + engineers
construction administration

key project experience:

new development

- Mast Capital | Miami River, Miami, FL
- Greystar | West Clox, Athens, GA

repositioning

- Northland | Floresta, Jupiter, FL
- Livcor | Arbour Square, Thorton, CO

best design tip:

from the very beginning, think of everything in 3D.
interior design is a work of art that you move through
and interact with.

favorite pattern:

hexagons, greek key, mudcloth

best advice:

dream up goals that scare and excite you at the same time.

hidden talent:

identifying which musical instrument is playing at
any given time. hooray for band geeks!

if it's the last thing i do...

i will ride in a hot air balloon or helicopter during
new years to see all the fireworks from above.

trip of a lifetime:

renting a car and driving from san francisco down
to san diego in a week!
